### Technical visit at INES - Friday 27<sup>th</sup> of April 2012

### 6<sup>th</sup> European Conference on PV-Hybrids and Mini-Grids

The French National Institute of Solar Energy (INES) is happy to welcome you for a technical visit at its installations.

You will see that INES covers the complete PV value chain, from Silicon material over cell and module production up to the formation of complete systems, including storage. The multi-microgrid of the PRISMES platform at INES is a development environment for PV-hybrids and minigrids and grid connected PV systems.

If you are interested in this visit, please register directly at INES - registration form to be sent until 29/3 to [inscriptions@ines-solaire.org](mailto:inscriptions@ines-solaire.org)

#### Organisation

- **Departure:** The bus in front of the congress center "The Manège" leaves at 17:00
- **Return:** The bus will leave you at Chambéry train station at about 19:30
- **For security reasons**
  - you will need your identity card or passport to access INES
  - you need to register until 29/3 using the registration form completely filled in

-----Registration form-----

Registration form to be sent until 29/3 !

- by email to [inscriptions@ines-solaire.org](mailto:inscriptions@ines-solaire.org)
- or by Fax to 0033/4.79.44.45.99 (should be avoided)
